

The current procedure that allows multiple applications and refunds for amateur radio vanity calls seems cumbersome and unfair. Those applicants that know the loop holes have an advantage.

I favor the procedure is the late 70's when Incentive Licensing created the Extra Class License. 1x2 calls were reserved for those amateurs that had shown several years of experience. With the limited number of these calls available, it would be desirable to reserve those calls for longer term amateurs, rather than only having an Amateur Extra License. I, therefore, recommend that 2x1, be granted for Extra Class, and all 1x2 call be granted for those Extra Class that have been licensed for 10, 15 or 25 years. A 1x2 call should mean something other than "a chance of the draw."

Respectfully Submitted.
Thank you for the opportunity.
